

NEWSLETTER - NOVEMBER 1983

Executive Elections

The main purpose of this mailing is to get the election ballots into the your hands. We ask you to make a choice if you have an opinion and mail your marked ballots to back to us immediately. Please bear in mind the following points:

- Place your signaure and VRRRA membership number in the top right corner.
- Mark your choices with "X" in the box next to the name.
- You may vote for all or only some of the positions.
- The deadline for returning ballots is postmarked December 15, 1983
- Mail ballots to: Election Officer

Annual General Meeting Summary

On November 18 the annual general meeting was held at the Black Creek Branch of the North York Public Library. Reports were received from all the outgoing executive members. All affairs were reported to be in order. Both the dinner and VRRRA race weekend generated modest profits and the club treasury now stands at over \$3000. A summary of Dunlop's sponsorship participation was given. The VRRRA participation in the IWM show was discussed (see below). The floor was opened for nominations. There was tremendous support for the elections. All positions are to be contested. It was observed that this state of affairs bodes well for the health of the club. This notion was supported by the many positive suggestions for new initiates tendered by members in an open discussion of club direction. This was perhaps the club's most constructive and positive meeting to date.

International World of Motorcycle Show - Jan 5,6,7,8

International Centre, Airport Road, Mississauga. Bill Mathison grateously volunteered to be this year's show coordinator. The members at the meeting endorsed the theme concept of "The History of Roadracing" as proposed by the president. A budget ceiling of \$300 was voted for production of props to become permanent club display material. Bill, with help from Ron Peter, will try to create a backdrop montage of poster-sized blowups, and race posters, etc. for each of the past five decades. In front of each decade's visuals, we will seek a representative machine or two. If you have any such memorabilia, Bill would love to copy it and promises to return all such treasures intact. Also, I hope you will lend your usual help to Bill, be it in manning the stand or in displaying a bike. Bill can be contacted as follows:
